ED3766 SERIES
SAE Class I Dual Color Surface Mount

The ED3766 Dual Color directional LED warning light offers the flexibility of two different color outputs within a single unit, comprising 12 high intensity LEDs, six of each color. SAE Class I light output, synchronization capability and the choice of 11 flash patterns allows the creation of an attention getting multi-color warning system with half the number of lights typically required. Each model can be programmed to flash either color option individually or alternate colors.
